Professional Summary

Results-driven developer with expertise in Java and Data Structures Algorithms, combined with practical experience in front-end development. Adept at designing responsive user interfaces and optimizing performance, with a strong ability to solve complex problems and deliver high-quality code.

Skills

Languages & Querying: C,C++, Java

Database: SQL

Frontend: HTML,CSS,Javascript,Bootstrap,React.js

Tools: Git, VSCode, IntelliJ, Eclipse

Education

Institute of Technical Education and Research

Bhubaneswar, Odisha

Bachelor of Technology in Computer Science and Engineering (CGPA: 8.84)

2023 – 2027

Relevant Coursework

Data Structures, Analysis of Algorithms, Object-Oriented Programming, Programming in Java , C++ Programming, DBMS, Computer Networks,Operating System

Projects

Dictionary App | *JavaScript, HTML, CSS*

Mar 2025 – Apr 2025

- Designed and developed a vocabulary-building application with real-time word search.
- Integrated external API for dynamic data retrieval (meanings, synonyms, usage).
- Optimized search performance and handled edge cases (empty input, incorrect words)
- Focused on responsive UI/UX to enhance usability.

Streamlit Dashboard App | *Python, Streamlit*

Jan 2026 – Feb 2026

- Developed an interactive data dashboard using Streamlit for real-time data visualization.
- Handled edge cases and debugging scenarios to ensure stable performance.
- Designed a responsive UI to improve usability and data interpretation.
- Utilized Python libraries for efficient data processing and visualization.

Certifications and Achievements

- Programming Fundamentals using Python - Infosys Springboard
- Java and SQL Certification (Intermediate Level) – HackerRank
- Basics of Python - Infosys Springboard
- Solved 100+ coding problems on LeetCode and GeeksforGeeks
